REACH SVHC Declaration

(EU regulation EC 1907/2006)

Doc. N.: 15128-26 **Date:** November 2026

This REACH declaration concerns our Part number:

B-9201213AN0PB0

ALFA'R connectors, s.l. herewith informs about the latest update on the REACH regulations.

On October 2008, ECHA has published the first "Candidate List" of substances of very high concerns (SVHC). Till today various substances are added to the "Candidate List" for authorization.

Our suppliers are obliged to inform us if any of these SVHC are present in any item at > 0,1%. So far no substances of the "Candidate List" were reported and therefore they are not present in a concentration > 0,1%.

Once new information is received, an update will be made accordingly.

Yours sincerely,

ALFA'R connectors
s.l. Quality department
